# Fahad Afzal Hussain

## Profile

B.Tech IT student (Class of 2028) with a strong foundation in Java, Data Structures and Algorithms. Passionate about solving complex problems, building efficient software solutions, and contributing to real-world projects. Experienced in coding challenges and web development projects, eager to apply my skills in a Software Engineering internship and grow as a developer in a dynamic tech environment.

## Education

### Bachelor of Technology

🏛 Bharati Vidyapeeth's College of Engineering, Delhi

📅 2024 - 2028 • Information Technology

Currently pursuing a Bachelor of Technology (B.Tech) in Information Technology from **Bharati Vidyapeeth's College of Engineering, Delhi**, with an expected graduation in 2028. Achieved a first-year CGPA of 8.5/10, building a strong foundation in programming, Data Structures & Algorithms, and software development concepts.

## Projects

### Task Master

[Project Link](#)

TaskMaster Pro is a productivity dashboard I built to organize work and stay consistent. It helps plan weeks and break them into daily tasks automatically. You can set smart schedules that fit your routine. A Pomodoro-style focus timer tracks sessions and focus time. Detailed stats and streaks keep you motivated and on track.

### Anti-Doping System

[Project Link](#)

An interactive awareness and support platform designed to promote clean sports. It provides the latest anti-doping news, engaging animations for better understanding, interactive quizzes to test knowledge, and an AI-powered chatbot for instant guidance. Built for the Smart India Hackathon with a focus on education, accessibility, and athlete support.

### PocketPal

[Project Link](#)

A smart expense tracker and budgeting tool that helps users manage their money with ease. It offers wallet balance monitoring, quick expense logging, budget overviews with progress tracking, recent expense history, and expense splitting features — making personal finance simple and effective.
